

NEJM Catalyst Innovations in Care Delivery: A New Journal from NEJM Group

Practical Innovations in Health Care Delivery

- ▶ Leading information source for innovative and practical ideas to improve patient care
- ▶ Peer-reviewed, digital-only subscription journal
- ▶ In-depth articles on the big issues in health care, expert articles, case studies, Insights Reports, Insights Interviews, and event clips
- ▶ Frequency: six issues per year, available January 2020

NEJM Catalyst Innovations in Care Delivery delivers practical and innovative ideas about how to transform health care that have been successfully implemented in other organizations. Curated content helps answer questions such as:

What are the clinical implications of the big data revolution?

What is the most sustainable financing model for a complex care program?

What does it take to improve patient engagement in a primary care setting?

How do you transition a specialty practice to a value-based care model?

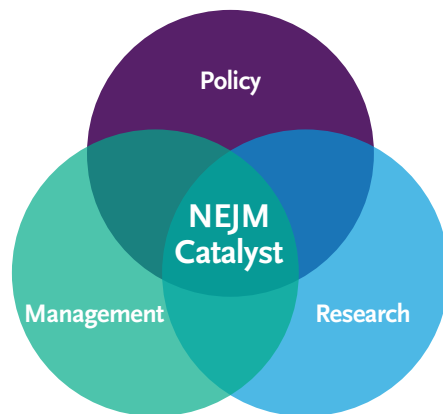

GLOBAL TOPICS:

- ▶ Redesigning care delivery
- ▶ EHR implementation
- ▶ Introducing AI-enhanced care
- ▶ Serving high-need, high-cost patients

BROAD APPEAL:

- ▶ Health care executives, clinical leaders, clinicians, and faculty

Positioned at the Center of Transformation

Editorial topics include: Alternate payment models, analytics and outcomes, culture of health, health care leadership, health technology, market landscape, new models of care, and patient-centered care
