

MOST INFLUENTIAL MEDICAL JOURNAL IN THE WORLD

- #1 Journal Impact Factor in Medicine, General & Internal category since 1999
- Publishes the best research at the intersection of biomedical science and clinical medicine
- Essential journal in 12 specialties

NEJM: HIGHEST IMPACT FACTOR

Measures importance of research published, 2018 Journal Citation Reports, Web of Science Group, 2019

GLOBAL PERSPECTIVE: Over 50% of our articles come from authors outside the United States

MULTIDISCIPLINARY: NEJM articles are widely cited in medical research and in disciplines outside of health care, including bioscience, technology, and economics

BROAD APPEAL: Used by clinicians, researchers, journalists, policymakers, health care administrators, and students

► Why clinicians, researchers, students, and policymakers go to NEJM.org:

I Access NEJM.org Frequently/Sometimes for the Following Reasons

BENEFITS OF AN NEJM SITE LICENSE

End-user Benefits

- Multimedia teaching and self-assessment tools, including Videos in Clinical Medicine, Quick Take Videos, and Interactive Medical Cases
- Articles published online ahead of the print issue
- Register to create customized views, receive content alerts, and save articles and searches
- Audio and video interviews
- Weekly audio summaries
- Supplementary material included with original research articles
- Over 1,000 Images in Clinical Medicine, including the weekly Image Challenge
- Article metrics to monitor impact
- Article slide sets for use in presentations
- Advanced article search tools
- Access to NEJM Resident 360, an online resource to help medical residents and students navigate the training years

Administrator Benefits

- Archival access to content dating back to 1990
- Free course-pack use for academic institutions
- Online account management and easy access to COUNTER-compliant usage statistics
- Content indexed and discoverable through major discovery services, including Summon[®], ExLibris Primo, and WorldCat
- Reference links to citations and related resources in Crossref, MEDLINE/PubMed, JStor, Scopus, and other linking partners
- Digital preservation of all content (1812–present) through Portico
- Integration with CHORUS to optimize identification, discovery, and access to all NEJM content
- Content indexed across ReadCube platform
- Print subscription available at a deeply discounted rate
- Two-factor authentication for additional administrator account security
- Marketing resources for your library
